

Prawdopodobnie wrażenie to spowodowane jest tym, że wzmacnia potrafi generować dźwięki o ogromnym ladunku enegetycznym i emocjonalnym w trójwymlarowej przestrzeni, poteguaje wrażenie rozmachu i nieskończoności. Jeśliby ktoś sądził, że baży przez to są rozciągnięte i rozmazane również w nieskończoność, to zapewne tylko dłatego, że większość wznacniaczy, które probują zrealizować taką koncepcje dźwięku, nie potrafi tego ostągnąć bez utraty innych wałorów dźwiękowych. W przypadku Jadis dźwięk zachowuje energię piotorum i zwartość kamienia. Basy są

We are proud to announce the next incoming unit from the Jadis lab.

The JA80 is the first amplifier ever produced by Jadis. It is the one which granted the brand its notoriety into the heart of many audiophiles around the world since 1983.

In 2015 the JA80 is still available at the Jadis' catalogue for the great musical pleasure of their owners. Nevertheless this piece of equipment remains build with the same passion of the well-done craftsmanship and the JA80 beneficiated over the years from technological improvements in the audiophile domain and the electronic industry.

Speaking of which, the last notorious evolution in the tube industry was the recent release of the KT150 pentode. Two years ago, we ordered some of these components in order to see what they had to offer and we were really pleased by the result, they were providing an outstanding musicality. This is how was born the I50 Jadis' integrated amplifier using the new KT150. However, we are not here to talk about the I50.

Today, we would like to let you know about the evolution of the JA80 which will be called the JA80 MkII. This version will enjoy all the last improvements made over the years and beneficiate of several updates to make it even better. The last but not least, this MkII version will also be the first Jadis monoblock amplifier compatible with the new KT150 pentode tubes.

For now, this new JA80 is still at the development stage but we are confident to be able to start the production in the coming months. In the case you would be interested by this unit, we can already take pre-order, the unit will be produced and shipped following date of ordering.

Sincerely yours,

Liliane Expert & Jean-Christophe Calmettes
