

Turntable **NOVUM**

This is a fully new developed turntable. It is planned to fill the gap between Thunder and Ascona. With invisible 3 Motor drive, digital Motor electronic and a fantastic new design. Up to 2 arms are possible up to 12 inch length.

Platter contains 24 Silencers and the motor electronic is external. Another feature is the very small footprint of the product-you only need 310mm in diameter of ground space. The product is available in silver or black anodized with different version of Top inlays like Carbon or black or silver. Product will be available soon.
